

**Petitioning President Donald Trump**

# Free KY Amish Farmer Samuel Girod

The FDA is trying to put Sam in jail for 68 YEARS for charges stemming from a labeling infraction on an herbal chickweed salve made with all natural ingredients. The entire story is at [kyfreepress.com](http://kyfreepress.com).

Please sign this petition (and share it far and wide, if you can). His sentencing is 6/16/17 -- we need to shine light on the situation.

The goal is 50,000 signatures, then a presidential pardon! Keep sharing -- it's working! Thank you!!!
